

## Shopping Mall RiedbergZentrum

Frankfurt am Main, 2005 - 2009  
Commercial buildings

The RiedbergZentrum shopping centre is located in the Riedberg urban development area in the north of Frankfurt. There are commercial areas with retail trade and an underground car park below. The ground floor is a largely open area, glazed to the outside, which can be divided flexibly. The connecting element of all sales areas is the mall, whose roof consists of 21 individual, conoidally shaped shed elements with skylights facing north. The shopping centre with an area of approx. 8,200 m<sup>2</sup> could be realised in only 3 years of planning and construction time.
